

University of Colombo School of Computing
SCS2312 Computational Models and
Programming Language Concepts
Tutorial - 10

- 1) Design a PDA that accept the language $L = \{0^n 1^n \mid n \geq 1\}$
- 2) Design a PDA that accept equal numbo of a's and equal number of b's.
- 3) Design a PDA that accept the language $L = \{ WW^R \mid W = (a+b)^+ \}$
- 4) Design a PDA that accept the language $L = \{ WCW^R \}$
- 5) Design a PDA that accept $L = a^m b^n a^m$
- 6) Design a PDA that accept $L = a^{m+n} b^m c^n$
- 7) Design a PDA that accept $L = a^n b^{2n}$
- 8) Design a PDA that accept $L = a^m b^n c^{m+n}$
- 9) Desing a PDA that accept $L = a^n b^m c^m$
- 10) Design a PDA that accept $L = a^n b^n c^n$
